AMERICAN SHIP IS PIONEER IN SOUTH AMERICAN SERVICE

(By H. P. Robertson, United Press Staff Correspondent.)

RIO DE JANEIRO, Jan. 19.—(By Mail.)—When the good American ship "Carolyn," pioneer of the new service established between Philadelphia and ports of Brazil and Argentina, steamed into this harbor just now, Pan-American business prospects sighed a real sigh of relief.

The new service will go a long way toward relieving a tense transportation situation, in the opinion of shippers here. Bi-monthly, even weekly steamers, are predicted for the near future.

After discharging her general cargo, about 500 tons, in this port the "Carolyn" turned her nose again southward for the ports of Santos and Buenos Aires. She will touch at Montevideo on later trips. The assurance of the immediate success of the new transportation enterprise is not based entirely on the situation created by the European war. Shippers here declare that American export trade with South American countries has grown tremendously in the last three years. It is declared that many Brazilian products are meeting difficulty in finding transportation for the United States, particularly coffee and rubber.

The "Carolyn" made the trip from Philadelphia in twenty-three days, which is about the average speed of boats of her class.

By a curious coincidence the "Carolyn" was the first steamer to go through the Panama canal after the opening of the "big ditch." Pioneer on the canal route, she is now pioneer in the new service to the ports of South America's east coast.

FALSE ALARM KILLS A FRENCH AVIATOR

Rising to Meet Supposed Raid, Lieut. Badora Has Fatal Fall.

PARIS, Jan. 20.—Lieut. Badora, a military aviator, is dead as a result of injuries received in an accident on Thursday night at the time the false alarm that a Zeppelin was approaching Paris was sounded. While adjusting his helmet the Lieutenant took one hand from the steering gear and his machine, alighted on the wing. He was too close to the ground to recover his balance and the airplane crashed to earth.

Deputy Felix Cabri urges that the municipal authorities of Paris install powerful electric sirens in different parts of the city to warn the population of the approach of Zeppelins. M. Cabri declares that the automobile horn sirens on the fire engines now used, are not loud enough.

Keeping Yourself Well

DRIVING OUT CATARRH

If people knew how the presence of catarrh is a constant menace, they would have none of it. It infests some part of the delicately adjusted body and makes it useless, thus throwing on the other organs more than their share of work. It affords a carefully prepared remedy for the germs of colds, grip, tuberculosis and pneumonia. It so disarranges Nature's delicate plans as to make possible asthma, hay fever and other respiratory disorders. It spreads until it becomes systemic, thus involving many organs and debilitating the entire system with serious results. Catarrh is easily neglected, and it rarely gets well of itself. It needs proper medical correction. For almost half a century many thousands have found help in Peppin, a valuable tonic with special efficacy in catarrhal conditions. The aim is to clean out waste matter, to dispel the catarrhal inflammation, and tone up the whole system. Its users willingly testify that it has done all this and even more for catarrhal sufferers. What it has done is the best proof of what it will do. You may rely on Peppin.

In tablet form it is pleasant to take and easy to administer.

Peppin Tablets are the ideal laxative and liver tonic. They have no unpleasant effects and do not irritate a habit. It, 10c, 25c. The Peppin Co. Columbus, O.

Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert, vigorous and vivacious—a good clear skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowel do.
